

RACE KIT

Mainsheet Ratchet Block Attachment

Replace the existing Wichard quick release shackle. Careful where it is impossible to lose the Mainsheet Ratched block attachment.

Cunningham Downhaul System / Block

A) Add to the existing Cunningham 2 x extra single pulley + extra downhaul rope lengthened to 120 cm original length + 120 cm (5'5").

Rig the system as shown in the photo. 2 pulleys leverage on the Cunningham.

B) The extra length of the Cunningham the Mainsheet Ratchet Block Attachment particularly in strong winds.

C) Splicing is allowed

Cunningham Tension Release System

To facilitate the release of the Cunningham Tension, two solutions exist:

a) An additional « Release Line » is added to the Cunningham with 120 cm extra length (see the photo).

b) No additional line is added, the Cunningham is simply placed on the top of the boom.

Outhaul and Top Mainsheet Pulley

Lower the top mainsheet pulley 20 cm. length = 20 cm.

Add 2 pulleys extra leverage on the outhaul single pulley + 120 cm extra length.
